Hi Carol,

After our e-mail exchanges yesterday, we double checked our QuikR data. We discovered that we actually have 33 facilities on our "Important CAFO" list, not the 26 we discussed. I recall the state doing some last minute substitutions and add ons which may have altered the original number. Sorry, I have too many numbers floating in my brain (my oversight). Does your QuikR data pull look like the one Chun pulled below (attached)? Our final tally shows 33 all located in the NorthCoast region (CA).

Glenn

Here's the file I just downloaded from QuickR. The name of the file in QuickR does not have the "modified 20121119". I added that cause I have multiple copies on my PC.
